

STATE OF MISSOURI
DIVISION OF PROFESSIONAL REGISTRATION

DIMENSIONS

BOARD FOR ARCHITECTS, PROFESSIONAL ENGINEERS,
PROFESSIONAL LAND SURVEYORS & LANDSCAPE ARCHITECTS

FALL/WINTER 2013

ARCHITECTURAL DIVISION LETTER

By: James C. (JC) Rearden, AIA, Division Chair

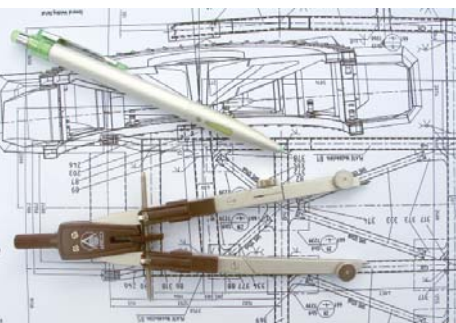

Of the six resolutions that were ratified and approved at the 2013 National Council of Architectural Registration Board's (NCARB) Annual Meeting, there were two in particular that I thought would interest some Missouri architects.

One of the resolutions that was passed will require a change in Missouri statutes in order for a Missouri architect to use their existing credentials to seek a license to practice in a Canadian province. In 1994, NCARB signed the Inter-Recognition Agreement with the Committee of Canadian Architectural Councils establishing a basis for immediate and mutual recognition between the provinces of Canada and each state registration board. In 1999, Missouri joined the agreement allowing its architects the ability to seek a license in Canada by complying with the

reciprocity terms. That agreement no longer exists. Simply put, it was outdated. For example, the Committee of Canadian Architectural Councils is now the Canadian Architectural Licensing Authorities (CALA). Also, experience and education standards have continued to evolve in both countries since the original agreement was signed in 1994. A new reciprocity agreement was needed

to recognize these changes. That new agreement is referred to as the Mutual Recognition Agreement. Missouri has notified NCARB of its intent to become a signatory to the new agreement; however, it will require a change in Chapter 327 in order to finalize the terms of the agreement.

The other resolution that I thought may interest some is the one that broadened NCARB's Education Standard to include non-accredited academic institutions within the United States and Canada. Prior to this resolution passing, an applicant with a degree in the field of architecture from a non-accredited program could only be considered if the applicant obtained a degree from an academic institution outside the United States and Canada. It was felt that there was no reason to deny applicants that had obtained their degrees from academic institutions in the United States and Canada from the same opportunities afforded to programs in other countries. For those who have been denied because their degree was not from an accredited program, there now exists a new option. These applicants can now seek to obtain an Education Evaluation Services for Architects (EESA) NCARB report that states they have met the NCARB Education Standard.

Another common question is whether rules are laws and carry the same weight as statutes. The answer is yes. (see Section 327.041. 2, RSMo). The rules will inform you of when and how you should affix your seal to a document, what is meant by immediate supervision, how to meet the continuing education requirements

for maintaining your license, and when a firm is required to have a Certificate of Authority. There is no excuse for not knowing Missouri's laws and rules that pertain to the practice of architecture. The Board's website is an excellent resource for accessing most things a licensee needs to know about Chapter 327 and the current rules and regulations, as well as any proposed changes. Furthermore, I feel the Board's staff is an excellent resource that is sometimes overlooked.

PROFESSIONAL ENGINEERING DIVISION LETTER

By: Kevin C. Skibiski, PE, SE, PLS, Division Chair

EARLY PE TESTING?

Should we allow the PE test to be taken early? By early I refer to taking the test prior to the completion of four years of progressive engineering experience. This question is getting a lot of discussion on the national level, with a wide variety of positions. For many years, California has allowed candidates

to take the PE test after two (2) years of experience. Recently Nevada, Arizona, and New Mexico have allowed taking the PE test immediately after graduation, if one has passed the FE exam first.

PROFESSIONAL ENGINEERING DIVISION LETTER CONTINUED...

The widely used example of describing engineering licensure has been the three legged stool. It takes all three legs to support the stool, as it takes all three parts - education, experience, and testing - to grant licensure as a Professional Engineer. That premise does not change. What is being discussed is the order in which those three actions occur.

Missouri Statutes and Rules spell out how we as members of the Board are to answer the primary question; can the PE test be taken early? Section 327.241.4 RSMo, states that the examination shall consist of two parts, the first part (FE Exam) may be taken after completion of the education requirement or during the final year of study at an accredited school of engineering, which is how most of us took it. Passing the test, along with the BS degree in engineering allowed us then to become an Engineer in Training (EIT), or using today's terminology an Engineer Intern (EI). Paragraph 5 of Section 327.241 states that any EI "who has acquired at least four years of satisfactory engineering experience, may take part two of the engineering examination". Paragraph 7 of Section 327.241 says that a person can graduate, gain four years of experience and then take both the FE and PE tests.

327.241.6 however, states "the board may, in its discretion, provide by rule that any person who has graduated from and holds an engineering degree from an accredited school of engineering may thereupon be eligible to take both parts of the engineering examination (FE and PE) and that upon passing said examination and acquiring four years of satisfactory engineering experience, after graduating and receiving a degree as aforesaid, shall be entitled to receive a license to practice as a professional engineer, subject,

however to the other provisions of this chapter."

So paragraph 6 opens the door to allow early PE testing, and it has been part of Chapter 327 for many years. It allows the Board "by rule" to provide for this scenario. So what do our Rules say on the matter?

Board Rule 20 CSR 2030-5.080, Standards for Licensure-Engineers, states in the middle of paragraph 1, "an applicant will not be admitted to the examination (PE Exam) sooner than four (4) years after the applicant has satisfied the educational requirements of sections 327.221 and 327.241, RSMo." The exception to this rule is for those with graduate degrees in engineering, which can reduce the requirement by one year for a master's degree.

So the Board has the authority to allow early taking of the PE test by changing the Board Rules, but should we? NSPE approved Position Statement No. 1770 on July 20, 2013 recommending that NCEES and state PE boards provide flexibility for optional early taking of the PE exam. NCEES at the Annual Meeting in August in San Antonio voted to direct the Uniform Procedures and Legislative Guidelines Committee to incorporate specific language changes into the Model Law to decouple the timing of eligibility to sit for the PE exam from the experience requirements. The vote was not unanimous, 41-24, and the final language will come back up for another vote next year.

Your Board wants to know how you feel about this issue. Does it make a difference when the test is taken? Will it help encourage more engineers to become licensed? You can contact us through the Board office or me directly at kevinskibiski@aol.com.

PROFESSIONAL LAND SURVEYING DIVISION LETTER

By: Michael C. Freeman, PLS, Division Chair

Are your LSIT candidates ready for the Fundamentals of Surveying (FS) exam? The October 2013 test was the last paper/pencil exam. All future exams will be “computer based.” Beginning January 2, 2014, the FS exam will be administered for the National Council of Examiners for Engineering and Surveying (NCEES)

by Pearson-Vue at a time and place most convenient to the candidate. We expect the Professional Surveying (PS) exam to go on-line in the next couple of years. However, because of the small number of applicants and our written portion of the State Specific exam, we will continue to offer this test twice a year at a site and time yet to be determined. As the testing procedure evolves, we'll continue to keep you informed.

In 2010, the Board prepared and implemented a **‘strategic plan’** as a guide for current and future Board Members. This plan is available on our Board website and I highly recommend that you look at it as it gives some insight into the issues that the Board considers in performing our duties. Appendix A of the plan identifies priorities, one of which is better communication with the licensees and the public. This is something that we've actively tried to do with the open house forums we've made available to you at our quarterly meetings. The

Board is also represented at the Missouri Municipal League annual meeting as well as at the Missouri Association of Counties annual meeting where we meet with local governmental officials to educate them on the requirement to use licensed professionals for their public works projects and the need to utilize the Qualification Based Selection (QBS) process.

Another plank in our strategic plan is the importance of keeping our statutes and rules current. We work closely with the professional associations of all four of our licensed disciplines along with the Design Alliance, an organization made up of representatives from the associations, the professions, and the Board. The Design Alliance acts as a sounding board for proposed legislation and works to identify and overcome potential obstacles that could derail legislation before the General Assembly.

Changing topics, the Land Surveying Division has received a number of “incompetent surveying” complaints over the past couple of years that are obvious attempts by the complainant to obtain a legal advantage in a civil dispute. Issues that constitute differences of professional opinion are not within the Board's jurisdiction. We review all complaints on the basis of adherence to sound surveying procedures and published surveying standards cited in Chapter 327 RSMo and Board Rules 20 CSR 2030, Chapter 16.

PROFESSIONAL LAND SURVEYING DIVISION LETTER CONTINUED...

Lastly, there has been some confusion with regard to reporting discipline in other states, specifically involving **Settlement Agreements** between a licensee and another jurisdiction. When the actions of a licensee are in violation of statutes or rules where he/she may be subject to disciplinary action, the licensing body often negotiates a **"Settlement Agreement"** with the licensee in lieu of going through a long drawn out (and expensive) legal process. In some cases the agreement is to surrender a license, in others it can range anywhere from monetary penalties to revocation. Regardless of the severity of the discipline, unless specifically stated otherwise, a **Settlement Agreement** is, in fact, discipline on a license. And, most likely this action will be reported by that jurisdiction to the **NCEES** exchange which is monitored monthly by our Board office. So, to avoid the possibility of additional discipline for signing a fraudulent renewal application, you need to report the discipline on your license renewal form.

LANDSCAPE ARCHITECTURAL DIVISION LETTER

By: Robert N. Hartnett, RLA, Division Chair

I recently attended the 2013 Council of Landscape Architectural Registration Boards' (CLARB) annual 2013 meeting in Minneapolis, MN. Joining me in Minneapolis was Missouri Board Member Bob Shotts, attending CLARB for the first time, and former Missouri Board Member Jerany Jackson as

CLARB Vice President.

As CLARB's Region II Director, the meeting began for me with a full day Board of Director's meeting. In addition to some of the more routine matters being handled as consent items, the Board heard presentations and took action on a report regarding a nominations and elections assessment, the proposed FY 2014 Budget, and a proposed investment policy change. Regarding the review of nominations and elections, a subcommittee made several tactical and strategic recommendations to improve refinements to the existing process. Financially, CLARB continues to do an outstanding job of managing its resources, including building a financial reserve to cover operational costs in case of an emergency as well as setting funds away for the Landscape Architecture Registration Exam (LARE) transition and next Task Analysis.

LANDSCAPE ARCHITECTURAL DIVISION LETTER CONTINUED...

The membership meeting began with a half day session presented by The Council on Licensure, Enforcement & Regulation (CLEAR). It may have been the best orientation program for new state Board members or an experienced Board member that I have seen. This was a tremendous session and it was discussed by CLARB attendees for the remainder of the meeting. I have also seen several emails on the subject since my return. I plan to share the handouts with our staff so that it can possibly be included on new Board member orientations in the future.

During the Opening General Session, we received a welcome from the Minnesota Board, had an update of actions and activities from Nancy Summerville, Executive Vice President of the American Society of Landscape Architects, an update from the Council of Educators in Landscape Architecture, and a list of the 2013 CLARB accomplishments for President Dennis Bryers.

Regional meetings were held on the first afternoon. As you might expect, many of the states in our region have some of the same challenges that we have in Missouri including timely board appointments, the potential of a decreasing licensure candidate population, and incorporating new communication technologies in communication with the licensees. The afternoon concluded with the repeat of a presentation that Past President Denise Husband presented to the Canadian Society of Landscape Architects on CLARB's groundbreaking "welfare" research and initiative.

The second day began with an interactive workshop to aid boards in increasing their efficiency, strategic focus and effectiveness. I was surprised to learn that many state

boards do not have a strategic plan. As you may know, Missouri has had a strategic plan since 2010 and it can be found on our website at <http://pr.mo.gov/apelsla.asp>. It is, however, probably time to conduct an update. The strategic theme continued in the afternoon with three sessions on regulating welfare, global initiatives, and looking at the value proposition of CLARB and Member Boards.

The final day was more tactical and dealt with more operational issues and enhancements including CLARB's 2014 Scope of Work, website enhancements and the data trends surrounding the LARE. The closing general session included the election of officers, and I am proud to say that our own Jerany Jackson has been elected as President Elect of CLARB. Congratulations, Jerany!

Having had the opportunity and privilege of representing Missouri since 1998, first as a delegate and now as a member of the Board of Directors, it is a joy to step back and reflect just how far CLARB has come in those 15 years. CLARB membership now stands at 52 including all 50 U. S. states and two Canadian provinces. Financially, the organization is as strong as it has ever been and continues to grow. CLARB is also being recognized in this country for its groundbreaking welfare research, and is now being asked to provide guidance and expertise regarding exams and licensure to countries in Europe, Asia, Central and South America.

Please let Bob Shotts, Jerany Jackson, or me know if you would like more information on CLARB. Until my term is up, feel free to contact me if I can ever be of any service to you.

IMPORTANT INFORMATION ON CORPORATIONS AND LIMITED LIABILITY COMPANIES

By: Judy Kempker, Executive Director

If your firm is incorporated or registered as a limited liability company and is offering and/or rendering architectural, engineering, land surveying, or landscape architectural services in this state, or if your articles of incorporation or articles of organization include the offering of such services in your purpose

statement, the Board believes that you are required by law to obtain the appropriate Corporate Certificate of Authority from this Board. If you are providing more than one of these services, you must obtain a separate Certificate of Authority for each.

If your company's name includes the word (or any derivative of the word) "architect," "engineer," "land surveyor," and/or "landscape architect" or is advertising that it can provide architectural, engineering, land surveying, and/or landscape architectural services, the Board also believes that you are required by law to obtain the appropriate Corporate Certificate of Authority. Your attention is directed to Section 327.401.2, which reads in part as follows:

327.401.2. Any domestic corporation formed under the corporation law of this state, or any foreign corporation, now or hereafter organized and having as one of its

purposes the practicing of architecture or professional engineering or professional land surveying or landscape architecture and any existing corporation which amends its charter to propose to practice architecture or professional engineering or professional land surveying or landscape architecture shall obtain a certificate of authority for each profession named in the articles of incorporation or articles of organization from the board..."

To apply for a Corporate Certificate of Authority, please visit the following link: <http://pr.mo.gov/apelsla-corporations.asp>.

For those of you who already have a Corporate Certificate of Authority, please be advised that when you renew your corporate license your Managing Agent must have an active and current license. In fact, there are questions on the corporate renewal application that specifically ask if there has been any change in the person designated as the Managing Agent in responsible charge of your corporation's or limited liability company's architectural, engineering, land surveying, or landscape architectural services and if the license of the Managing Agent is current. The name of the licensee the Board has recorded as your Managing Agent will be printed on your corporate renewal application. If you have changed Managing Agents, it is your responsibility to notify the Board office of the change within 30 days by completing and submitting an Affidavit to Amend the

EXECUTIVE DIRECTOR'S LETTER CONTINUED...

Managing Agent. This form can be accessed at: http://pr.mo.gov/boards/apelsla/amend_name.pdf. If you submit your corporate renewal application and fee but your Managing Agent's license is not active, your Corporate Certificate of Authority will not be renewed nor will your fee be refunded.

Also, on your Corporate Certificate of Authority renewal application you will find a question which asks if your corporation or limited liability company is currently in good standing in the Office of the Missouri Secretary of State. If it is not, it will be necessary for your corporation or limited liability company to return to good standing with that office before your corporate renewal can be processed.

The Board has the authority to invoke "Civil Penalties" on corporations and/or limited liability companies practicing architecture, engineering, land surveying, and/or landscape architecture without a Corporate Certificate of Authority. To ensure compliance with Chapter 327, RSMo, please make sure your corporation or limited liability company has the required Corporate Certificates of Authority and that they are renewed in accordance with Board Rule 20 CSR 2030-11.010.

The 100 Missouri Miles Challenge

What is the 100 Missouri Miles Challenge?

In June 2013, Missouri Governor Jay Nixon launched 100 Missouri Miles Challenge, encouraging Missourians to join him in completing 100 miles of outdoor physical activity by the end of the year.

Missouri was named "Best Trails State" by American Trails, a national nonprofit organization working on behalf of the nation's hiking, biking and riding trails.

From neighborhood greenways to backcountry hiking trails, Missouri's nationally-recognized trails can accommodate a wide variety of activities for all ages and interests. Governor Nixon has challenged all Missourians to complete 100 miles of physical activity by the end of the year while enjoying the incredible outdoor resources found in the Show-Me State.

Whether you run, walk, bike, paddle, or roll, everyone can participate. This challenge is a great opportunity to enjoy Missouri's outdoors, improve your health, and have fun with family and friends.

Joining the challenge is easy, either as an individual or as a group. Missourians can register and track their progress online at 100MissouriMiles.com. Find more information and helpful resources on Facebook and Twitter.

Friday 9 a.m. to 5 p.m. Eastern time.

EXAM DATES AND FILING DEADLINES

The Fundamentals of Engineering and the Fundamentals of Surveying Examinations will be offered during the months of January, February, April, May, July, August, October, and November as computer-based exams at Pearson VUE testing centers. Candidates for the FE or FS examination must register directly with NCEES at www.ncees.org. After successfully completing the FE or FS examination, examinees will need to complete an application for enrollment as an engineer intern or land surveyor-in-training. Application forms can be obtained from the Board's web site. Engineer Interns: <http://pr.mo.gov/engineerinterns-application-forms.asp>; or, Land Surveyors-in-Training: <http://pr.mo.gov/landsurveyorsintraining-application-forms.asp>.

Principles and Practice of Land Surveying Examination Dates	Application Filing Deadline	Re-Examination/ Re-Scheduling Application - Filing Deadline
April 11, 2014	December 1, 2013	February 15, 2014
October 24, 2014	June 1, 2014	August 15, 2014
April 17, 2015	December 1, 2014	February 15, 2015
October 30, 2015	June 1, 2015	August 15, 2015
April 15, 2016	December 1, 2015	February 15, 2016

Principles and Practice of Engineering Examination Dates	Application Filing Deadline	Re-Examination/ Re-Scheduling Application - Filing Deadline
April 11, 2014	December 1, 2013	February 15, 2014
October 24, 2014	June 1, 2014	August 15, 2014
April 17, 2015	December 1, 2014	February 15, 2015
October 30, 2015	June 1, 2015	August 15, 2015
April 15, 2016	December 1, 2015	February 15, 2016

Completed Application for Examination or Re-examination-Rescheduling Application Form must be filed (received) in the Board office no later than the filing deadline, no exception.

Please access http://www.ncees.org/Exams/Pages/Exam_schedule.php
for additional examination dates and other useful information.

CBT UPDATE

This past month, NCEES offered the last pencil-and-paper administration of the Fundamentals of Engineering (FE) and the Fundamentals of Surveying (FS) examinations. The administration of these examinations will transition to computer-based testing (CBT) on January 2, 2014. NCEES staff is in the final stages of modifying the NCEES examinee management system; working with Pearson VUE to open new test sites to accommodate the examinee population; creating and posting videos on the NCEES website to provide additional information to examinees about the impending changes and an overview of the Pearson VUE test centers; and promoting the transition to every available audience, including a webinar that was conducted on October 1 with almost 500 engineering educators.

Over the past several months, NCEES has made several key decisions regarding CBT and the processes that support it.

REGISTRATION:

- Registration for computer-based FE/FS exams opened November 4, 2013.
- Registration for the April 2014

pencil-and-paper PE/PS exams opens December 2, 2013.

- Examinees registering for a computer-based exam must pay the exam fee directly to NCEES using a VISA or MasterCard credit or debit card.
- The first available appointments for computer-based exams will be January 2, 2014.
- The computer-based FE and FS exams will be administered during four testing windows throughout the year: January–February, April–May, July–August, and October–November. Registration will be open year-round. Seating will be available during the open testing windows only.

MODELS OF EXAMINEE APPROVAL:

- Three models of examinee approval are available to NCEES member boards:
- 1. Automatic model**—Examinees will be allowed to register directly with NCEES without prior approval by the member board.
 - 2. Education restriction model**—Depending on a board's selections, examinees who are currently enrolled in or who are graduates of EAC/ABET, ETAC/ABET, or ASAC/ABET programs will be able to register directly with NCEES without prior approval of the member board. All other examinees

will be referred to the member board to complete a state-specific application.

3. Manual model—All examinees will be required to file an application with the member board and be approved by the board before registering with NCEES.

RESULTS:

NCEES will post the results of computer-based exams 7–10 days after an examinee takes an exam. NCEES will notify examinees by email that their results are available through their MyNCEES account. When an examinee logs in, he or she will see either “Pass” or “Fail” on the screen. Diagnostics will continue to be provided for failing examinees. NCEES will also refer the examinee to his or her member board's website for additional information. Unless provided a specific link by a member board, NCEES will refer all examinees to the home page of the board's website. Once posted, the results will be available to all NCEES member boards through the secure portion of the NCEES website.

- For the PE/PS exams, NCEES will continue to provide member boards with examinee results via a data file. For most boards, NCEES automatically posts results to an examinee's MyNCEES account once the results have

CBT UPDATE CONTINUED...

been released to the board. However, some boards choose for the posting of results to be delayed; for these boards, effective with the October 2013 exam administration, NCEES will begin posting results to each examinee's MyNCEES account 45 days after the results have been provided to the board. This will ensure that NCEES records are current and that examinee results are accessible to all NCEES member boards to enhance mobility. Member boards that require an examinee's results to be placed on hold will be able to contact NCEES to request

this action.

To address the anticipated increase in calls to NCEES regarding CBT and other NCEES services, NCEES has created a new department called Client Services. Six NCEES client services representatives are serving as the first line of communication for NCEES. These individuals, who are being supervised by Pam Powell, are responding to all general questions regarding services offered by NCEES. In addition to phone communication, this group is also using

a chat feature to address questions posed from users on the NCEES website. All examinees who have questions about the CBT process or other NCEES services are encouraged to contact an NCEES client services representative by phone at 800-250-3196 or through the [chat feature](#) available on the "Contact Us" portion of NCEES' website. They are available Monday through Friday between the hours 8:00 a.m. and 5:00 p.m. Eastern time.

IMPORTANT INFORMATION REGARDING LICENSE RENEWAL

Please be advised that “Renewal Notices” were mailed the first part of October to all architects, engineers, land surveyors, landscape architects, architectural corporations, engineering corporations, land surveying corporations and landscape architectural corporations that were originally licensed in an ODD year. If you were originally licensed in an odd year and didn’t receive a renewal notice this fall, please call the Board office at: (573) 751-0047.

MAILING OF RENEWALS:

- Renewal notices are mailed as a courtesy to all licensees.
- The renewal notice is mailed to your address of record on file at the Board office. If you move, it is your responsibility to notify the Board office of your new address promptly so that we can update your record.
- The Board cannot be responsible for misplaced or mishandled mail.
- Failure to receive an application for renewal of a license or certificate of authority does not relieve the licensee or certificate holder from their duty to timely renew, nor does it relieve them from the obligation to pay any additional fee(s) necessitated by any late renewal.

BEFORE YOU RETURN YOUR RENEWAL NOTICE TO THE BOARD OFFICE, PLEASE CHECK THE FOLLOWING:

- Have you enclosed the correct fee?
- Have you completed all sections?
- Have you signed the renewal application?

Renewal applications are not valid unless signed. Renewal applications that are incomplete or submitted without the correct fee **WILL BE RETURNED.**

It is the licensee’s responsibility to ensure that the renewal application is completed and returned in a timely manner. The renewal period will end on December 31, 2013. A licensee who fails to renew his/her license by the renewal date shall not practice in Missouri. Licensees practicing in Missouri without a renewed license are subject to disciplinary action by the Board.

You also have the option of renewing your license online. In fact, the Board strongly encourages its licensees who are up for renewal in 2013 to utilize the online renewal system. By renewing online, you are provided with immediate confirmation that your license renewal has been received. It also allows you to pay your renewal fee with a major credit card. Corporations can also renew online.

PLEASE NOTE THAT ONLINE RENEWALS ARE NOT AVAILABLE FOR THE FOLLOWING LICENSEES:

- Licensees wishing to change their license status from active to inactive.
- Licensees who currently hold an inactive license and wish to return to an active status.
- Licensees who currently hold an inactive license and wish to remain inactive.
- Licensees who will have reached the age of 75 or older.
- Licensees renewing after December 31, 2013.

***These licensees must complete and return the paper renewal form.**

If you are not sure when your license expires, you can either call the Board office, visit the Board’s Web site and click on “Licensee Search” via <https://renew.pr.mo.gov/licensee-search.asp>, or look at the 5x7 certificate sent the last time you renewed—it will display your expiration date.

NEW LICENSEES

ARCHITECTS

The following individuals were licensed between April 1, 2013 and October 1, 2013:

Abu-Jaber, Amir M.
Baker, Nathan

FAREWELL & BEST WISHES

KATHY ACHELPOHL, AIA

On behalf of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects, we would like to sincerely thank Kathy Achelpohl, AIA for her dedication to the Board and exemplary services rendered to the people of the state of Missouri while serving on the Board.

Kathy served as a member of the Architectural Division from December 17, 2009 to August 1, 2013.

Kathy was a devoted and conscientious member of the Board. Her work ethic and commitment will certainly be missed. We take this opportunity to wish her the very best with her future endeavors.

WILBUR S. FEAGAN, PE

It is with great pleasure that the Board wishes one of its licensees, Wilbur S. Feagan, a **Happy 100th Birthday.**

"100 years" of memories and "100 years" of life, along with over 63 years of licensure as a PE, is certainly cause for acknowledgment

and special recognition. Wilbur celebrated his Centennial Birthday on Monday, September 9th. He was initially licensed in Missouri as a Professional Engineer on July 12, 1950 under number E-5011. We congratulate Wilbur on this amazing milestone.

DISCIPLINARY ACTIONS

DISCLAIMER: Every effort has been made to ensure that the following enforcement information is correct. However, this information should not be relied upon without verification from the Board office. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Discipline orders are public data and copies may be obtained by contacting the Board office. Pursuant to Chapter 327, RSMo, a licensee is entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her probationary period providing that the licensee adheres to all of the terms and conditions of the Order. However, a licensee whose license has been suspended, is not entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her suspension period.

LICENSEES CURRENTLY ON SUSPENSION

DAVIS, ALLEN K., PE-2004017155 (Ozark, Missouri) – suspended pursuant to Section 324.010, RSMo on May 18, 2013.

GOMEZ, MARIO P., PE-19007 (Ladue, Missouri) – suspended pursuant to Section 324.010, RSMo, on November 21, 2009.

GRAEFE, SAMUEL WARD, PE-18597 (Moore, Oklahoma) – suspended pursuant to Section 324.010, RSMo, on April 23, 2011.

HELD, FREDERICK HENRY III, PE-2006019664 (St. Charles, Missouri) – suspended pursuant to Section 324.010, RSMo, on November 21, 2009.

KLEIN, EDWARD F., PE-13977 (Kansas City, Missouri) – suspended pursuant to Section 324.010, RSMo, on May 21, 2012.

LARSON, KURT E., A-3605 (Ballwin, Missouri) – suspended pursuant to Section 324.010, RSMo, on June 9, 2008.

LUCAS, MARTIN A., PLS-1857 (East Prairie, Missouri) – suspended pursuant to Section 324.010, RSMo, on November 21, 2009.

RENNER, JOHN W., LS-2000 (Kansas City, Missouri) – suspension commenced on June 20, 2011 for sixty days, and then placed on probation for three years, with this discipline to commence upon Mr. Renner becoming tax compliant with Chapter 324.010, RSMo, (House Bill 600).

STANLEY, HAROLD RAY, PE-19372 (Peculiar, Missouri) – suspended pursuant to Section 324.010, RSMo, on June 19, 2010.

STROUD, CHARLES LEROY, PE-18371 AND LS-1423 (St. Louis, Missouri) – suspended pursuant to Section 324.010, RSMo, on May 18, 2013.

LICENSES CURRENTLY ON PROBATION

BAUM, DAVID C., A-8147 (Milwaukee, Wisconsin) – probation commenced on October 17, 2013 and ends on October 16, 2014.

BRADLEY, DENNIS M., A-4516 (Kansas City, Missouri) – probation commenced on December 5, 2011 and ends on December 4, 2016.

GROJEAN, RONALD L., A-3445 (Cape Girardeau, Missouri) – probation commenced on October 4, 2013 and ends on October 3, 2014.

MITCHELL, DENNIS TROY, A-6211 (Arlington, Texas) – probation commenced on July 18, 2010 and ends on December 17, 2013.

SAPP, MICHAEL F., A-4986 (Maryville, Illinois) – probation commenced on April 18, 2013 and ends on April 17, 2014.

WURM, PHILLIP J., LS-2278 (Kirkwood, Missouri) – probation commenced on April 7, 2011 and ends on April 6, 2014.

REVOCATION

MASLAN, STEPHEN P., PE-20397

Kansas City, Missouri

Summary: The Board previously reported that Mr. Maslan signed and entered into an agreement with the Board, whereby his professional engineering license was placed on probation for a period of five (5) years commencing on November 6, 2009 and ending on November 5, 2014. Thereafter, Mr. Maslan did not timely renew his license by December 31, 2012 as required by the 2009 Order. Mr. Maslan did renew his license on March 15, 2013. On July 17, 2012, the Kansas Board of Technical Professions disciplined Mr. Maslan's Kansas professional engineering license for sealing fire alarm systems in two projects that contained a significant number of deviations from applicable codes that his conduct constituted gross negligence, incompetence, and misconduct. The Board's 2009 Order required Mr. Maslan to comply with all state laws of all states of the United States.

Cause for Discipline: The Board may impose additional discipline on Mr. Maslan's professional engineering license because of the provisions in the Board's 2009 Order and due to the provisions of Section 327.441.2(8), RSMo by disciplinary action against the holder of a license or a certificate of authority, or other right to practice any profession regulated by this chapter granted by another state, territory, federal agency or country upon grounds for which revocation or suspension is authorized in this state.

Board Action: On May 7, 2013, the Board held a probation violation hearing on Board versus Stephen P. Maslan. After having carefully and fully considered all the evidence presented at the hearing before the Board, it was the decision of the Board to revoke Mr. Maslan's professional engineering license number PE-20397. The Order became effective May 30, 2013. It should be noted that this case is currently on appeal.

PROBATIONS

GROJEAN, RONALD L., A-3445

Cape Girardeau, Missouri

Summary: The Board voted to open a file on Mr. Grojean after an investigation uncovered his involvement in a set of plans for the Cotton Boll Sheltered Workshop in Kennett, Missouri. Mr. Metz Skelton is a Missouri licensed professional engineer but is not a Missouri licensed architect. Mr. Skelton is the principal of Skelton and Associates, a sole proprietorship which does not hold a certificate of authority to practice any discipline in Missouri. On March 5, 2012, Mr. Skelton sealed a number of plans for the Cotton Boll Sheltered Workshop, Inc. in Kennett, Missouri. These plans included floor plans and elevations which presented architectural work that was not incidental to the practice of professional engineering. No architect was involved in the preparation of the plans and Mr. Skelton did not prepare the plans under the immediate supervision of Mr. Grojean or any other architect. The Cotton Boll Sheltered Workshop submitted the plans sealed by Mr. Skelton to the City of Kennett, which refused to approve them unless and until they were sealed

by an architect. A contractor on the project sent the plans to Mr. Grojean and requested that he review them so the owner could obtain permit approval from the City of Kennett. Mr. Grojean reviewed the plans and, without making any significant changes, affixed his seal and signature to them dated March 15, 2012. The building had already been erected when Mr. Grojean received the plans, so Mr. Grojean knew construction would not follow his plans. Mr. Grojean's act of sealing and signing a set of plans which had been drafted by another, not under his direct supervision, violated Board Rules and Statutes and therefore is cause for discipline.

Cause for Discipline: Cause exists to discipline Mr. Grojean's architectural license pursuant to Section 327.441.2(6), RSMo, by violation of, or assisting or enabling any person to violate, any provision of this chapter, or of any lawful rule or regulation adopted pursuant to this chapter.

Board Action: The Board authorized the Attorney General's Office to proceed with settlement. Thereafter, Mr. Grojean signed a Settlement Agreement agreeing to place his architectural license, number A-3445, on probation for a period of one year commencing on October 4, 2013 and ending on October 3, 2014.

BAUM, DAVID C., A-8147

Milwaukee, Wisconsin

Summary: The Board received information that on August 18, 2011, the Texas Board of Architectural Examiners entered an Order of the Board disciplining Mr. Baum's architectural license in Texas. The Order disciplined Mr. Baum for two separate violations for failing to respond or answer to two separate letters sent by the Texas Board. The Texas Board sent these letters as part of a random audit of Mr. Baum's continuing education activities. Mr. Baum was requested to provide his Continuing Education Program Hour Log along with supporting documents. The Texas Board sent two different letters requesting the documents. The Texas Board imposed a \$250 administrative penalty for each violation, for a total of \$500. On or about December 19, 2011, Mr. Baum completed an on-line application to renew his Missouri architect license. When completing the renewal application, Mr. Baum was prompted to agree that "since January 1, 2010, I have not been the subject of disciplinary action in any other licensing jurisdiction." Mr. Baum checked the box certifying the acknowledgment that he had not been the subject of disciplinary action in any other licensing jurisdiction. Mr. Baum's statement in his application that he had not been disciplined was false, as the Texas Order dated August 18, 2011 was "disciplinary action."

Cause of Discipline: Cause exists to discipline Mr. Baum's architectural license pursuant to Section 327.441.2(3), RSMo, by use of fraud, deception, misrepresentation or bribery in securing any license or certificate of authority issued pursuant to this chapter or in obtaining permission to take any examination given or required pursuant to this chapter; and, Section 327.441.2(8), RSMo by disciplinary action against the holder of a license or a certificate of authority, or other right to practice any profession regulated by this chapter granted by another state, territory, federal agency or country upon grounds for which revocation or suspension is authorized in this state.

Board Action: The Board authorized the Attorney General's Office to proceed with settlement. Thereafter, Mr. Baum signed a Settlement Agreement agreeing to place his architectural license, number A-8147, on probation for a period of one year commencing on October 17, 2013 and ending on October 16, 2014.

VOLUNTARY SURRENDER

EAVES, MARVIN T., PE-18343

Green Ridge, Missouri

Summary: As previously reported, the Board received a complaint alleging incompetence on the part of Mr. Eaves who stamped all of the engineering and architectural plans submitted to the City of Warrensburg, Missouri for the Sharpe Automotive project located in Warrensburg, Missouri. Since Mr. Eaves' website states that his education and experience is in chemical engineering and engineering management, the complainant was concerned that Mr. Eaves had stamped plans that were not within his appropriate area of expertise. The complainant also questioned the amount of direct and immediate personal supervision that Mr. Eaves exercised over Mr. Matt Skelton, the designer/drafter who prepared the plans and who is not licensed as either an engineer or an architect. Thereafter on August 9, 2011, the Board held a disciplinary hearing on this matter and voted to place Mr. Eaves' professional engineering license, number PE-18343, on probation for three (3) years commencing on August 31, 2011 and ending on August 30, 2014. However, on May 28, 2013, voluntarily and on his own free will, Mr. Eaves surrendered his Missouri Professional Engineer's license number PE-18343. Based upon a review of recent drawings prepared by Mr. Eaves, the Board has cause to further discipline his license under the provisions of Section 327.441.2(5).

Cause for Discipline: Mr. Eaves' conduct, as stated above, provided the Board cause to discipline his professional engineering license pursuant to Section 327.441.2(5), RSMo, by incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by this chapter.

Board Action: On May 28, 2013, Mr. Eaves signed an Affidavit of Voluntary Surrender of Professional Engineer's License whereby Mr. Eaves agreed to surrender his Missouri professional engineering license number PE-18343. The Affidavit of Voluntary Surrender of Professional Engineer's License became effective on May 28, 2013.

PUBLIC CENSURE

MOOMEY, CHRISTOPHER A., PE-2008025195

St. Louis, Missouri

Summary: The Board received information that on or about January 9, 2012, Mr. Moomey entered a plea of guilty of two counts of Domestic Assault, Second Degree, in violation of Section 565.073, RSMo, a crime of violence.

Cause for Discipline: Cause exists for the Board to discipline Mr. Moomey's professional engineering license pursuant to Section 327.441.2(2), RSMo, which states: the person has been finally adjudicated and found guilty, or entered a plea of guilty or nolo contendere, in a criminal prosecution under the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions or duties of any profession licensed or regulated under this chapter, for any offense an essential element of which is fraud, dishonesty or an act of violence, or for any offense involving moral turpitude, whether or not sentence is imposed.

Board Action: On May 7, 2013, the Board held a disciplinary hearing on this matter. After having carefully and fully considered all the evidence presented at the hearing before the Board, it was the decision of the Board to issue a Public Censure to Mr. Moomey. The Disciplinary Order was entered on May 30, 2013.

PROBATED CERTIFICATE OF AUTHORITY AND CIVIL PENALTY

MILLMAC, LLC, LS-2013012220

Lee's Summit, Missouri

Summary: The Board received information that on or after August 13, 2012, MillMac, LLC offered and provided professional land surveying services without having obtained a corporate certificate of authority from the Board to offer or provide such services. It did so by incorporating in Missouri and offering and providing professional land surveying services without having obtained a corporate certificate of authority from the Board to do so. MillMac, LLC also claimed in its web site that it had provided professional land surveying services since 1996, even though it has not been licensed by the Board to provide such services. On April 9, 2013, MillMac, LLC filed an application with the Board for a corporate certificate of authority to provide professional land surveying services in the state of Missouri.

Cause for Discipline: Cause exists for the Board to deny MillMac, LLC's application for a land surveying corporate certificate of authority pursuant to Section 327.441.2(5), RSMo, by incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by this chapter; and, Section 327.441.2(10), RSMo, by assisting or enabling any person to practice or offer to practice any profession licensed or regulated by this chapter who is not licensed and currently eligible to practice pursuant to this chapter.

Board Action: In lieu of denial of MillMac, LLC's application for a land surveying corporate certificate of authority, the Board authorized a probated license to be issued to MillMac, LLC. Thereafter on April 24, 2013, the Board issued an Order to MillMac, LLC to pay \$500 in civil penalties, which shall be handled in accordance with the provisions of section 7 of article IX of the Missouri Constitution. In determining the amount the Board decided to impose on MillMac, LLC, it considered the deterrent affect the penalty would have, the circumstances that led to the violations, the severity of the violation and risk to the public, the economic benefits gained by MillMac, LLC, and the interests to the public. Within 60 days of the date of the Order, MillMac, LLC shall issue a cashier's check or money order in the amount of \$500 made payable to Q. Troy Thomas, Director of Finance, Jackson County, Missouri, for payment to the county school fund. Upon payment of the civil penalties, the corporate certificate of authority shall be considered in good standing. On or about June 25, 2013, the Board received a cashier's check in the amount of \$500 for the civil penalties from MillMac, LLC. On June 25, 2013, the Board mailed the \$500 cashier's check to Q. Troy Thomas, Director of Finance, Jackson County, Missouri. MillMac, LLC's land surveying corporate certificate of authority, number LS-201301220, is now considered in good standing.

MILLMAC, LLC, E-2013015431

Lee's Summit, Missouri

Summary: The Board received information that on or after August 13, 2012, MillMac, LLC offered and provided professional engineering services without having obtained a corporate certificate of authority from the Board to offer or provide such services. It did so by incorporating in Missouri and offering and providing professional engineering services without having obtained a corporate certificate of authority from the Board to do so. MillMac, LLC also claimed in its web site that it had provided professional engineering services since 1996, even though it has not been licensed by the Board to provide such services. On May 13, 2013, MillMac, LLC filed an application with the Board for a corporate certificate of authority to provide professional engineering services in the state of Missouri.

Cause for Discipline: Cause exists for the Board to deny MillMac, LLC's application for a professional engineering corporate certificate of authority pursuant to Section 327.441.2(5), RSMo, by incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by this chapter; and, Section 327.441.2(10), RSMo, by assisting or enabling any person to practice or offer to practice any profession licensed or regulated by this chapter who is not licensed and currently eligible to practice pursuant to this chapter.

Board Action: In lieu of denial of MillMac, LLC's application for a professional engineering corporate certificate of authority, the Board authorized a probated

license to be issued to MillMac, LLC. Thereafter on June 3, 2013, the Board issued an Order to MillMac, LLC to pay \$500 in civil penalties, which shall be handled in accordance with the provisions of section 7 of article IX of the Missouri Constitution. In determining the amount the Board decided to impose on MillMac, LLC, it considered the deterrent affect the penalty would have, the circumstances that led to the violations, the severity of the violation and risk to the public, the economic benefits gained by MillMac, LLC, and the interests to the public. Within 60 days of the date of the Order, MillMac, LLC shall issue a cashier's check or money order in the amount of \$500 made payable to Q. Troy Thomas, Director of Finance, Jackson County, Missouri, for payment to the county school fund. Upon payment of the civil penalties, the corporate certificate of authority shall be considered in good standing. On or about August 27, 2013, the Board received a money order in the amount of \$500 for the civil penalties from MillMac, LLC. On August 27, 2013, the Board mailed the \$500 money order to Q. Troy Thomas, Director of Finance, Jackson County, Missouri. MillMac, LLC's professional engineering corporate certificate of authority, number E-2013015431, is now considered in good standing.

LEWELLYN TECHNOLOGY, LLC, LS-2013014530

Linton, Indiana

Summary: The Board received information that before February 13, 2013 until April 12, 2013, Lewellyn Technology, LLC offered and provided professional engineering services without having obtained a corporate certificate of authority from the Board to offer or provide such services by providing professional engineering services in Missouri by providing Arc Flash Engineering Analysis performed for the Pittsburgh Corning Corporation in Sedalia, Missouri. From February 13, 2013, until April 12, 2013, Lewellyn Technology, LLC offered and provided professional engineering services without having obtained a corporate certificate of authority from the Board to offer or provide such services by incorporating in the state of Missouri with as part of its corporate statement of purposes to provide "training and Arc Flash analysis services." Arch Flash analysis services are professional engineering services as defined by Section 327.181, RSMo. On April 12, 2013, Lewellyn Technology, LLC filed an application with the Board for a corporate certificate of authority to provide professional engineering services in the state of Missouri.

Cause for Discipline: Cause exists for the Board to deny Lewellyn Technology, LLC's application for a professional engineering corporate certificate of authority pursuant to Section 327.441.2(5), RSMo by incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by this chapter; and, Section 327.441.2(10), RSMo, by assisting or enabling any person to practice or offer to practice any profession licensed or regulated by this chapter who is not licensed and currently eligible to practice pursuant to this chapter.

Board Action: In lieu of denial of Lewellyn Technology, LLC's application for a professional engineering corporate certificate of authority, the Board authorized a probated license to be issued to Lewellyn Technology, LLC. Thereafter on May 16, 2013, the Board issued an Order to Lewellyn Technology, LLC to pay \$500 in civil penalties, which shall be handled in accordance with the provisions of section 7 of article IX of the Missouri Constitution. In determining the amount the Board decided to impose on Lewellyn Technology, LLC, it considered the deterrent affect the penalty would have, the circumstances that led to the violations, the severity of the violation and risk to the public, the economic benefits gained by Lewellyn Technology, LLC, and the interests to the public. Within 60 days of the date of the Order, Lewellyn Technology, LLC shall issue a cashier's check or money order in the amount of \$500 made payable to Kim Lyne, the Treasurer of Pettis County, Missouri, for payment to the county school fund. Upon payment of the civil penalties, the corporate certificate of authority shall be considered in good standing. On or about May 29, 2013, the Board received a cashier's check in the amount of \$500 for the civil penalties from Lewellyn Technology, LLC. On May 29, 2013, the Board mailed the \$500 cashier's check to Kim Lyne, Pettis County Treasurer, Pettis County, Missouri. Lewellyn Technology, LLC's professional engineering corporate certificate of authority, number PE-2013014530, is now considered in good standing.

PROENERGY SERVICES, LLC, E-2013023735

Sedalia, Missouri

Summary: From at least May 21, 2002, until June 17, 2013, ProEnergy Services, LLC offered and provided professional engineering services without having obtained a corporate certificate of authority from the Board to offer or provide such services by incorporating in the state of Missouri and by offering such services through its corporate web page on the internet. On April 5, 2013, Mr. Fred Bartol, Vice-President of ProEnergy Services, LLC wrote the Board and stated that the company did provide engineering services and advertised that it did provide such services. Mr. Bartol explained that the company provided such services through subcontractors. On June 17, 2013, ProEnergy Services, LLC filed an application with the Board for a corporate certificate of authority to provide professional engineering services in the state of Missouri.

Cause for Discipline: Cause exists for the Board to deny ProEnergy Services, LLC's application for a professional engineering corporate certificate of authority pursuant to Section 327.441.2(5), RSMo by incompetency, misconduct, gross negligence, fraud, misrepresentation or dishonesty in the performance of the functions or duties of any profession licensed or regulated by this chapter; and, Section 327.441.2(10), RSMo, by assisting or enabling any person to practice or offer to practice any profession licensed or regulated by this chapter who is not licensed and currently eligible to practice pursuant to this chapter.

Board Action: In lieu of denial of ProEnergy Services, LLC's application for a professional engineering corporate certificate of authority, the Board authorized a probated license to be issued to ProEnergy Services, LLC. Thereafter on July 9, 2013, the Board issued an Order to ProEnergy Services, LLC to pay \$2,200 in civil penalties, which shall be handled in accordance with the provisions of section 7 of article IX of the Missouri Constitution. In determining the amount the Board decided to impose on ProEnergy Services, LLC, it considered the deterrent affect the penalty would have, the circumstances that led to the violations, the severity of the violation and risk to the public, the economic benefits gained by ProEnergy Services, LLC, and the interests to the public. Within 60 days of the date of the Order, ProEnergy Services, LLC shall issue a cashier's check or money order in the amount of \$2,200 made payable to Kim Lyne, Pettis County Treasurer, Pettis County, Missouri, for payment to the county school fund. On or about July 16, 2013, ProEnergy Services, LLC mailed a check in the amount of \$2,200 for civil penalties owed. ProEnergy Services, LLC's engineering corporate certificate of authority, number E-2013023735 is now considered in good standing.
